DON'T WANT TO BE "FUSSED OVER;" COMPANY D BOYS MAY COME SINGLY OR IN PAIRS

Local Soldiers Are Strongly Opposed to Parading in Philadelphia.

TIRED OF WAR CLOTHES

If Discharges Should Be Granted Before Tomorrow They Certainly Will Not Be in Line, They Declare; Story Told of the Death of Fred Daniels.

Home is the chief topic of discussion among the Connellsville boys in Company D and other 110th Regiment outfits now at Camp Dix. N. J., according to Ira D. Younkin, who arrived here last night after visiting his brothers, Warren and Gustin at the camp. The boys are wondering just when they will get their discharges and whether they will drift back one at a time or come in a body.

One thing the 110th boys speak plainly about is their unwillingness to stay for the parade in Philadelphia tomorrow. "If we get our discharges before starting for Philadelphia we would never be there for that parade, that's sure," is what they all say. Every single man is anxious to see the old town and get back to civilian clothes again.

The boys are beginning to feel certain they will get their discharges about Saturday and are wondering if they will drift back singly or all come in a body. The consensus of opinion among them seems to be they will arrive singly or in pairs. The reason for this is to avoid any demonstration on their return. Connellsville's soldiers, heroes that they are, would rather come back to peace and quiet than to be "fussed over."

The boys have been spending their time loafing about the camp in barracks. Some of them went to Philadelphia on passes, but for the most part they remained at the camp. This is the longest week of all, they say, being so near their home town and still so far away.

Younkin was in the camp on Monday, eating dinner and supper with the local boys. He saw most of the Connellsville boys who were at the camp, including men of Company D, the hospital corps, the headquarters and supply companies. One brother, Warren Younkin is in the Headquarters company. He was gassed, but has recovered. The other, Gustin, is with Company D. He was wounded twice, but has also recovered. He also saw Percy Sheetz, Cornell Santmyer, Walter Bixler, Frank Freeman and many others. Fred McCormick and Joseph Bowyz were other Connellsville visitors at the camp. Ira Younkin did not get to see the Connellsville members with the third battalion. These men were just leaving Philadelphia on Monday evening as he came back from Camp Dix.

He said the boys did not talk much about what went on over there and seemed to want to forget there had been a war. His brother, Gustin, he said, told of the last time he had seen Corporal Fred Daniels of South Connellsville alive. The two had been chums and when they went into battle on the day Daniels was fatally wounded, the corporal bet Younkin 25 francs he would get the first German. He never saw Daniels again after that.

SOUVENIRS STOLEN

Local Boys Greatly Disappointed Over Their Losses.

Many Connellsville boys and others in the 110th Infantry have been dreadfully disappointed by the discovery after their arrival at Camp Dix that souvenirs brought over on the transport containing souvenirs have been stolen and articles taken from almost every individual's bag.

The baggage was loaded on the transport when the regiment left France and the petty thefts were not discovered until after the men reached Camp Dix.

Austrian Delegation Moving. ZURICH, Switzerland, Tuesday, May 3.—The Austrian delegation to the peace conference, numbering 70 persons, passed through Switzerland this afternoon on a special train for Paris.

CORPORAL HYDE OF MT. PLEASANT HAS NARROWEST ESCAPE

CAMP DIX, May 14—Corporal George D. Hyde, Company E, whose home is in Mount Pleasant, underwent the narrowest escape of the war. He was sitting safely in an excavation of a railroad embankment during a 36-hour bombardment hoping to pick up news that might be of value to his men. As he returned after his day and a half vigil a piece of shrapnel struck his pouch and rammed in the pin of a hand grenade. Under any other circumstances it would have exploded and blown Hyde to tatters. As it was, he escaped unharmed. "But I threw that grenade away in a hurry," he added.

POOLING PLAN AGAIN UP

Great Britain Insisting on Distribution of German Merchant Marine Among the Nations on the Basis of Losses Through Submarine Warfare

By Associated Press.

PARIS, May 14.—The council of four of the peace conference appointed this afternoon a sub-committee comprising one member from each of the five great powers, (Great Britain, France, Italy, the United States and Japan), to deal with objections and proposals from the German peace plenipotentiaries.

The three German notes delivered to the council of four, the Hayes agency says, deal with the following subjects:

First, the effect of the peace terms upon Germany's economic situation. Second, with manner in which President Wilson's points are applied which is protested against.

Third, with the principles of the separation demands which are protested although it is declared that Germany is prepared to subscribe to them.

The council of four held a meeting this morning considering problems relative to ports and waterways and some details of the Austrian treaty. It is presumed that the German note which was reported to have been delivered last week was also taken up by the council.

Renewed efforts are being made by the British delegation to secure an agreement calling for the pooling of former German merchant vessels and their distribution on a basis of tonnage lost during the war instead of the plan of the United States, retaining those ships interned in America prior to that country entering the war.

PARIS, May 14.—Italian delegates to the peace conference are no longer insisting upon the fulfillment of the secret treaty of London and this part of the controversy relative to territory on the eastern shore of the Adriatic is tending towards an adjustment according to those who have taken part in recent conferences. The status of Fiume is still being discussed as the plan to make it a free city, similar to Danzig, has not proved acceptable.

Belief that the peace treaty with Austria would be handed to the delegates of that nation by the end of the present week was expressed today.

TEN BUMS SENT TO JAIL AFTER DAVIDSON RAID

Baltimore & Ohio Officers Begin Promised Cleanup of Coke Plant.

ESTABLISHES NEW RECORD

Each is Given the Maximum Sentence Permitted Under City Law for the Offense; Sheriff Howard Promises to Put Prisoners to Work on Roads.

PARIS, May 14.—The council of four of the peace conference appointed this afternoon a sub-committee comprising one member from each of the five great powers, (Great Britain, France, Italy, the United States and Japan), to deal with objections and proposals from the German peace plenipotentiaries.

The three German notes delivered to the council of four, the Hayes agency says, deal with the following subjects:

First, the effect of the peace terms upon Germany's economic situation. Second, with manner in which President Wilson's points are applied which is protested against.

Third, with the principles of the separation demands which are protested although it is declared that Germany is prepared to subscribe to them.

The 10 sentenced were arrested in what is just the beginning of a series of raids on the Davidson plant. The railroad authorities say the tramps continually rob cars when they are pushed in on the sidings near that district, and have promised to clean up the undesirable if the mayor will sentence them to jail.

Sheriff T. L. Howard was called last week in regard to handling the men and he said to send them to jail as work was being started on repairing the county roads and the vagrants could be used.

It is the intention of the police to make Connellsville and the immediate vicinity so hot for tramps and other undesirables that they will be glad to stay away from the city.

On reaching Paris again the street cars had stopped running. They finally hired a taxi; it cost \$4 to ride two miles and then two of them rode on the outside. He rode on the hood of the taxi. Altogether it was the greatest trip he has ever expects to take, he concludes.

When Captain James F. Beattie, Jr., of Pittsburg, in command of the First Battalion, Fifteenth Engineers, returns to his organization something is going to happen to him. Just what will happen, Lieutenant Colonel Schoepf declined to state. Captain Beattie reached Camp Sherman with his organization last week. He went to Col. Schoepf and asked for a short leave of absence. The colonel instructed this be granted. Today the commandant of the Fifteenth Engineers was wondering why Captain Beattie did not return to camp, when a messenger boy appeared. "Married yesterday; starting back to camp tomorrow," read a telegram signed by Captain Beattie. Captain Beattie is a son of James F. Beattie, Sr., of Fairmount City, Pa., who is widely known in this city, having for a number of years been superintendent of the old works at Wheeling and Morrell."

**Doctor Issues Warning
And Tells How to
Stop Tobacco Habit**

TREATMENT CAN BE GIVEN SECRETLY

HERE IS HIS PRESCRIPTION
NEW YORK—Doctor Connor, for
merly of Johns Hopkins Hospital, says:
"I am often asked if I know of any-
thing to stop the tobacco habit which
can be given secretly, and I always re-
commend a formula which I have fre-
quently prescribed with great success.
Here it is: Go to any up-to-date drug
store and get fourteen Nitro-Powder
pounds and one pound of fox's dung.
Mix all these powders twice in
one coffee mill or food mill in a short
time. All desire an craving for tobacco
will disappear, and the victim will be
sure he has stopped its use of his own
accord. These powders are colorless,
odorless, tasteless—therefore cannot
be detected. They contain no hab-
its. It undermines the health and
leaves the victim an easy prey to
general debility, throat and lung
troubles, nervousness, insomnia, heart
trouble, kidney trouble, headache, tongue
and lip cancers, and even blindness.
Physicians the world over often
trace the start of the tobacco disease
to the moment when the patient first
smokes. If you have a friend or relative whom
you would like to see cured it is your
duty to get him rid of the habit
without delay. Try the above formula
on him and you will be surprised at
the rapidity with which it does the
work. Remember, there are no bad
after effects."

Our American Workmen

A country worth fighting for is worth working for! The man who drove rivets in a ship or a tank was backing up the boys at the front. It is not on the battlefields alone that this war was fought. It was waged behind the lines, in the factory, in the workshop, on the farm and in the home as truly as in the trenches. The pale-cheeked woman at home as well as the workman in the shop, feels that lack of "snap" and energy which red blood should bring. Perhaps he or she has had an attack of the Influenza, in consequence the blood lacks tone. Perhaps the red blood corpuscles are lacking. Build up the blood with an iron-tonic tablet, called "Ironite," first discovered and made by Dr. Pierce. After taking this tonic tablet you have good red blood and an active liver, and you can face the enemy successfully—whether it is the germs of grip, a common cold or spring fever. America needs its strong men, and American men need to be strong. Then there is that blood-maker and herbal tonic which has borne the recommendations of many thousands of people during the past fifty years. It is called Doctor Pierce's Golden Medical Discovery, and can be had in tablet form at almost all drug stores at 60 cents a vial. It has the right combination of herbal extracts to bring "pep," vim, vitality and vigor to you. When you have taken Dr. Pierce's Golden Medical Discovery Tablets you will feel the red blood coursing through veins and arteries, and you will be surprised to find how easy it is to tackle every "job," every undertaking calling for responsibility or efficiency. The man who takes this tonic tablet has iron nerves for hardships, and an interest in "the drive" grips him. Be sure and ask for Dr. Pierce's.

The next meeting will be a soldiers and sailors' meeting at the home of Mrs. C. D. Reid.

TO REMODEL IS BETTER.
There is every argument in favor of remodeling the municipal building according to the plans of Councilman Utts as opposed to the erection of a separate building as the mayor and Councilman Frye propose.

In the first place the changes proposed will utilize the long unused space in the municipal building more completely than ever before. The plan is entirely practicable and the remodeled structure will be made to really serve its purpose as a municipal building. Ample room will be available for both the fire apparatus and the conduct of the departments of the city government. The expense involved is more easily within the limits of the city's existing and prospective financial condition than the construction of a new building would be.

The plans provide for a beautification of the public grounds along lines that will be a decided improvement over the present lay out. The erection of a building north of the municipal building will cut off from the railroad bridge and the West side a view of the federal buildings which is one of the real architectural ornaments of this part of the city and which should be even more exposed if possible rather than be hidden.

Without an expenditure very much in excess of the estimated cost of remodeling the municipal building it will not be possible to set a central fire station of such a character as would make it pleasing in external appearance leaving out of consideration the disadvantages arising from concealing the federal building from view. Moreover, a separate building will add appreciably to the city's cost of maintaining city property which the records show is already a very considerable sum each year.

Any greater expenditure than will cover the cost of adapting the present building to new purposes while also presenting it to other uses of the city government is a needless expenditure and one the city council should not at this time think of authorizing to be made.

In the precedent of two being a majority of five to rule in council when settling the central fire station question?

Treaty Solves No Continental ProblemsFrank H. Simpson in Pittsburgh Ga.

The treaty of peace represents the Anglo-Saxon domination of the peace conference and the League of Nations covenant which is attached to it is regarded "one end of Europe to the other" as a partnership agreement by the two great branches of the Anglo-Saxon family to perpetuate that supremacy established by war and revealed in Paris. The treaty itself represents the fusion of American power and British brains. It contains a settlement of all questions which might affect American and British interest, and it leaves un-solved every problem the continent.

The treaty which has been formulated in Paris exactly reproduced the chaos of Berlin by Balkanizing Eastern and Central Europe. As the Congress of Berlin it has liberated some millions of subject peoples but in doing so the Poles are left on the sea as it denied Serbia similar exit a general on sea in permitting Italy to annex nearly a half a million southern Slavs in avoiding real settlement between Hungarians and Rumanians in fostering the rival claims between the Poles and the Czechoslovaks between the Rumanians and the Serbians in leaving the whole Rumanian problem exactly as the Congress of Berlin left the Turkish problem unsettled, the present world congress has invited a repetition of the tragedies of the past.

There is not the smallest faith in the League of Nations on the continent

Europe. The French demonstrated their lack of faith by demand for alliance with Great Britain and the United States outside of the League of Nations as a guarantee of their safety. The Italians in the matter of Fiume have demonstrated how little abstract theories of justice weigh when questions of national aspiration are involved while Poles, Rumanians, Jugoslavs, Greeks each one perceives that while the right of existence of small people is verbally affirmed in the League of Nations the Treaty of Peace dooms each one of them to disappointment and disaster.

The hope of the world for the Paris Conference was two-fold—that in liquidating the war it would remove the cause of unrest and rivalry which destroyed European peace and that having done this it would erect a League of Nations which would have power to defend that just and reasonable settlement which the Paris Conference had made. This hope has been destroyed in both respects.

It is a totally illusory thing to imagine that we have made peace in Europe. At this moment the Serbs are arming against the Italians; the Rumanians are fighting the Hungarians on the west and the Bolsheviks on the east. Bulgaria is meditating another attack on Rumania, and Polish armies are engaged on the whole front on Vilna o Lemberg.

"One of the nations represented in 20,000,000 in this Central European group has accepted the decision of the Conference of Paris. The attitude of each is precisely the attitude of Serbia, Bulgaria and Greece after the Congress of Berlin. It is a passionate determination to appeal from the injustice and neglect of the West to such forces as theirs. And for each of these peoples for the whole 80,000,000 the League of Nations covenant represents not a charter of liberty but a sentence of death for it has established in International law a condition which no one of these peoples will accept."

The course of Anglo-Saxon policy at Paris, its lack of concern for problems which were masters of life and death for the French, its total unwillingness in fact the gigantic difficulties of Eastern Europe, its incoherent policy with regard to Italy, these things have produced clear continental reaction. There is not in France or Italy nor in the West or in Poland, Czechoslovakia, Hungary, Rumania, Jugoslavia or Bulgaria, in fact the smallest faith in the League of Nations or the slightest regard for it as a moral force. Its decisions and its provisions will not bind the Jugoslavs since the Treaty which contains them deprives the Jugoslavs of nearly 700,000 people of their own race. It will not bind the Poles deprived of all but an illusory outlet on the sea. It has for the east of Europe no greater appeal than the document which emerged from Berlin because it pays no greater tribute to their just aspirations although in its language it asserts principles which if applied would have corrected the evils the Treaty of Peace has created.

There has been at all times in England a strong minority which has protested against the exclusively American policy pursued by the British Government in Paris. This element was sufficiently strong to reverse the policy of Lloyd George when that policy was about to destroy Anglo-French friendship but it has not been sufficiently strong to prevent the British from sacrificing the Poles to the Germans and the Jugoslavs to the Italians for it is necessary to remember that while President Wilson protested in the matter of Fiume, he made no objection to the absorption by Italy of nearly 500,000 Slavs in the Isonzo land of Trieste.

To sum up then the peace conference has been dominated by Anglo-Saxon influences. Mr. Wilson's League of Nations idea has been translated into a covenant mainly the work of able British statesmen whose friendship for the United States is not to be questioned and whose hope is that the world war will lay the foundation for enduring Anglo-American association. But this covenant and this League of Nations as an Anglo-Saxon creation has failed in any degree to recognize conditions of Continental Europe. It therefore has no real strength and nothing more than formal association outside of the British Empire and the United States. In France its sole strength will be a possible alliance between Great Britain and the United States and France which would be in fact a negation of the ideals of the American champions of the League of Nations.

We shall say in our truth what the terms of existence of the Poles, Southern Slavs, Hungarians, Rumanians, Czechoslovakians, Bulgars and Greeks are to be but each of these peoples has in advance announced its refusal to accept the conditions and the armistices are illusory in nature. When one recalls the history of Serbia since the Congress of Berlin when one recalls the course of events in the Balkans it is not difficult to see what is to come.

As a basis for an Anglo-Saxon alliance between the United States and the British Empire, with the possible inclusion of France provided we and the British are prepared to give France those guarantees to which she is entitled the League of Nations can exist and may exist, but as an association of all the peoples of the world to prevent war it is dead because 80,000,000 of people outside of Germany and 70,000,000 who do not accept the terms fixed by the Paris Conference and are ready now as in the past to appeal to arms are in certain cases already appealing to arms to reverse the decisions.

As between Great Britain the United States and Germany this treaty may be a settlement. As between France and Germany it may be settled if we and the British guarantee the French against new German attack but as between the Germans and the people of the East and South of Europe as between Italy and the Southern Slavs as between the Hungarians and Rumanians and the Serbians as between the Poles and the Czechoslovaks between the Rumanians and the Serbians in leaving the whole Rumanian problem exactly as the Congress of Berlin left the Turkish problem unsettled, the present world congress has invited a repetition of the tragedies of the past.

There is not the smallest faith in the League of Nations on the continent

10TH BAND

To Give Concerts in Berlin and Elsewhere If Possible to Arrange.

Don Kamel, the popular bandmaster of the 11th Infantry band, has written to Father Z. T. Kimmel, of Berlin, that every member of the famous organization has expressed the desire to give a concert at Berlin as a compliment to their leader.

The only obstacle in the way is the fact that the instruments played by the musicians are government property, and they will not know whether or not they will have to return the instruments to the government until the organization reaches Camp Dix.

B. Zimmerman of Somerset has taken up with the War Department the matter of permitting the band to use its instruments on a short contract tour.

According to reports received from home, the 11th band was one of the best popular musical organizations in the 28th Division.

The Power Behind the Strong
Sturdy Men and Healthy
Beautiful Women of Today.

"We make strong, hard, red-blooded men and women in every way which I have found to valuable as organic iron—Nuxated Iron," says Dr. James Francis Sutton, formerly Physician of Bellevue Hospital, New York and the Westchester County Hospital, White Plains, New York.

**MAKE THIS TEST YOURSELF
And Find Out Where Your Blood Stands**

See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were failing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form.

Nuxated Iron is now a standard article which is well known throughout the world. Unlike other foreign products it is easily assimilated, does not tax the kidneys, and does not irritate the stomach. The non-albuminous granules pass through the body and entirely assimilate results to every part and they will benefit your body. It is dispensed by all good druggists.

With the sale of the store operated soon after the Civil War, in which he participated. As a member of the firm of W. S. Yard & Company, he engaged in the management of a general store. After two years he and his partner, John Lane, purchased the interest of Mr. Yard and for three years continued the business as Newcomer & Lane. They then sold a half interest to Morgan & Company, which had erected coke works nearby. The firm operated as J. S. Newcomer & Company until 1893, then retired from business. The coke works had been sold to the H. C. Frick Coke company and they could no longer control the business. After the dissolution Mr. Newcomer commenced the erection of a store building at Morgan, continuing in the business there, with a manager having charge of the store. However, Mr. Newcomer, despite his advanced years, was able to make a trip to the store from West Newton, where he was residing at the time of his death, almost daily. Had he lived until March 22 last he would have been 80 years old.

The sale attracted many old-time friends of Mr. Newcomer from the community of Morgan.

The Brownsville Tigers were defeated by a 3-0 score in a baseball game at Van Meter Saturday by the home team. The pitching of Lawrence Floro of Van Meter, who has just returned from France as a casual, was responsible for the victory, allowing only three hits, and striking out 17 of his opponents.

Edward Muldawny, Sokol M. Muldawny and Lesky helped the Van Meter team to score. The Van Meter aggregation is anxious to book games with teams along the Yough. For games write the baseball manager, Van Meter.

**Tired, Nervous Women

The reason we recommend Vinol so strongly for such conditions is because it is a non-secret remedy which contains Beef and Cod Liver Peptones, Iron and Manganese Peptones and Glycerophosphates, the very elements needed to build up a run-down system and replace weakness with strength.

HERE IS PROOF

"I was suffering from a nervous breakdown—loss of flesh and poor appetite so I could hardly drag around and do the work for my family. My doctor prescribed Vinol. It not only made me well and strong but I have gained in weight."—Mrs. S. M. Gray.

Father Antoine sat down upon the bank beside me.

"M. Duchaine has been a recluse for many years," he said, "and of late his mind has become affected. It is said that he was implicated in the troubles of 1867, and that, fearing arrest, he fled here and built this chateau in this desolate region where he would be safe from pursuit. Solitude has made a hermit of him and taken him out of touch with the world of today."

"I believe that Léonore has discovered coat, on his property, and by threatening him with arrest has induced complete ascendancy over the weak-minded old man. However, the fact remains that his daughter was married by me to M. d'Epernay some ten or twelve days ago at the chateau."

"My duties took me to Quebec. There I learned that Mme. d'Epernay had died on the night of her marriage, and that her husband was present at her death. Again it was told me that she was living at the Chateau Frontenac with another man. It was not for me to question whether she loved her husband but to do my duty."

"I appealed to you. You refused to listen to my appeal. You threatened me, moreover. And you denied my priesthood. I shall not help you in the pursuit of her, M. Hewlett, for you are actuated solely by love for the wife of another man. Is that not so?" he ended, leaning over me with a penetrating look in his blue eyes.

"Yes, it is so. But I shall go to the chateau," I answered.

Pere Antoine rose up.

"You will find food here," he said, "and if you wish to take exercise there are snowshoes. Try to find the chateau—do what you please; but remember that if you lose your way I shall not be here to save you. I shall return from my mission in a week and be ready to conduct you to St. Boniface. And now, monsieur, since we understand each other, I shall prepare the supper."

I swallowed a few mouthfuls of food and fell asleep soon afterward. In the morning when I awoke the cabin was empty.

I spent the next two days recovering my strength, and on the third, found myself able to leave the hut for a short tramp.

I found one of the pistols in the hut, and in the pocket of my fur coat were a couple of cartridges which I had overlooked. The rest I had fired away in my delirium.

The cabin was situated in a valley, around which high hills clustered. Strapping on the snowshoes I set to work to climb a lofty peak which stood at no great distance.

I must have turned out at a slight angle which took me some distance out of my course, for my progress was suddenly arrested by a mighty wall of rock, sheer precipice that seemed to descend perpendicularly into the valley underneath. Somewhere a torrent was roaring like a miniature Niagara. I stopped to stare in admiration. Far below me the narrow valley had widened into a smooth, snow-covered surface of a lake.

Plant Juice is valuable in relieving such conditions as are related by Mr. Andrew Newhart, who lives at 1107 Vicksburg street, Pittsburgh, where he has lived for the past five years, and is a well-known machinist. He said: "I have suffered with my stomach for several years and have tried a number of different medicines; but I seemed to grow worse. My muscles were affected, I had no appetite and I felt sore all over my body. I read about Plant Juice and decided to try it. I am glad I did for it has cured my stomach trouble and I can eat everything I want, I feel like my old self again and can do a good day's work. I gladly recommend it to others."

This was to be my last night in the cabin. I could not return, not though I were perishing in the snows.

Happily my eyes were now entirely well, and my hands, though chapped, and roughened from the frostbites, had suffered no permanent injury. So I started out with grim resolution on the sixth morning, when the dawn was only a red streak on the horizon and the stars still lit my way.

As I stood, rather weary, balancing myself upon my snowshoes, I heard a wolf's howl quite near to me. Raising my head I saw no wolf but an Eskimo dog—the very dog I had encountered in New York—Jacqueline's dog!

CHAPTER XI.

Under the Mountains.

The dog was standing on a rock at the base of the hill immediately before me—and calling. I almost thought that it was calling me.

I took a few steps toward it, and it disappeared immediately, as though alarmed—apparently into the heart of the mountain.

When I reached the spot where it had been it was nowhere to be seen. And the pad-prints ran toward a tiny hole no bigger than the entrance to a fox's lair—and ended there.

At this spot an enormous boulder lay, almost concealing the burrow. I put my shoulder against it—in the hope of dislodging it sufficiently to enable me to see into the cavity. To my astonishment, at the first touch

I Saw the Chateau.

These mountains, a circuit of perhaps twenty miles, approaching the chateau by the edge of the lake. I concluded that there must exist a ridge of narrow beach between the whirlpool and the castle, though it was invisible from above, and that the entrance would disclose itself to me in the course of my journey.

Although the sun was well above the horizon when I awoke I started out on the fourth morning eager to achieve the entrance to the chateau.

First I plodded back to the two mountains which guarded the approach to the valley, then worked along the flank of the ridge of peaks, searching for an entrance. The further I went, however, the higher and more precipitous became the mountains.

There was no visible entrance to that mountain lake on any side, and to descend that sheer, ice-coated precipice was an impossibility.

It was long after midnight when I reached the cabin again, exhausted and dispirited.

I awoke too late on the fifth morning, and I was too stiff to make much of a journey. I climbed to the edge of the glacier once again in the hope of discovering an approach. I examined every foot of the ground with meticulous care.

But wherever I approached the edge the same wall of rock ran down vertically for some three hundred feet, veneered with ice and wrapped in a perpetual blinding spray.

I was within three-hundred feet of Jacqueline's house and yet as far away as though leagues divided us. I looked down at the chateau and ground my teeth and swore that I would win to her. But all the rest of that day went in fruitless searching.

"THE SAVAGE WOMAN"—In which Clara Kimball Young and her own company will be seen is today's big attraction. Miss Young is seen as Renée, the daughter of a derelict trader, now dead. Renée is mistaken by a native prince for the reincarnated spirit of the queen who once dwelt within the ruined palace where he first catches sight of the girl. Frightened, she prevents her capture by flashing a mirror in his eyes and making her escape. She flees through the forest and is mistaken by another man, this time for an animal. He fires at her, wounding her slightly, when she turns again to flee. Lerier bathes the wound and commands the girl, whom he sees is afraid of him, to lead him out of his forest. When Lerier returns to Paris Renée goes with him, and is happy until she understands that a marriage ceremony is desirable and that Lerier is wearying of her and returning to his former love, Aimee Ducharme. Aimee has given him a curious stone for his collection; this Renée destroys in a fury and then returns to Abyssinia to find another to take its place. Lerier also goes back to the spot where he found Renée, but this time is captured by a fanatic prince who prepares to offer him as a sacrifice to the spirit of the queen. Renée appears just in time to save him, which she does without knowing what is happening by kneeling to her lord. The natives, who mistake her for the "spirit" of the queen, flee in terror. A selected comedy is also being shown. Friday and Saturday Mabel Normand will be seen in "Sis Hopkins."

THE PARAMOUNT.

"A FIGHT FOR LOVE"—The thrilling new Harry Carey picture is being shown today. The picture takes one back to the hair-raising days when the Indians and white men traded and when a man's life was worth no more than a pistol shot. Harry Carey, as Cheyenne Harry, never acted a more superb rôle. Every drop of fighting blood he has is up in this picture. Harry drifts into an Indian camp and finds it illuminated by the gracious presence of an Indian maiden whom he immediately favors with his bashful attentions. Then comes Michael, a half breed whiskey runner, who enters camp with a keg of firewater and raging fever of jealousy. He tells the Canadian Northwest mounted police that Cheyenne Harry is in camp, and Harry leaves in a canoe borrowed from a missionary father. As he leaves the water about him is spattered with bullets from the rifles of the police. In due time he arrives at the local store of the Hudson Bay company. Added to a red and white drama of Indian, whiskey, love, murder and fighting there are glorious bits of scenery in the Canadian woods that command your instant admiration. The picture is quite a change from the general run of Harry Carey pictures. A selected comedy is also being shown. Thursday Montague Love and June Elvidge will be seen in "The Quickening Flame," a World feature. Friday and Saturday Lillian Walker will be starred in "The Grain of Dust."

THE ARCADE.

"THE MAN OF NIGHT"—Is the fitting name of a serial in which William Duncan, Vitagraph's famous star and director, is the leading figure, since he is in many respects a man of night. He is one of the most powerful men physically, the screen has ever shown; is absolutely fearless and of incomparable energy in planning and carrying out stunts of screen thrills. The truth of this statement is emphasized in the first episode of the "Man of Night," which will be seen at the Arcade theatres today and tomorrow, and each Wednesday and Thursday thereafter for fifteen weeks. In addition to this, which is the full worth of the admission price alone, will be seen Hudson's Dixie Girls in

THE BOYS ARE HOME!

You Should Have a Brand New Flag

To display in honor of our boys' home-coming, for it was these boys who have made our home a safe and better place to live in. This is the year above all other years that every True American in this city and county should display the Stars and Stripes. There will be many occasions when you will need a Brand New Flag, for there will be numerous parades, as well as National Holidays, namely Decoration Day, Flag Day and the Fourth of July. This paper has been appointed by one of the largest flag manufacturers in the United States to distribute these flags, which can be seen at our office. Remember the quantity is limited, so act quickly. Full particulars for securing these flags can be found in Coupon on another page. It pays to be a reader of this paper.

TERMS FAR FROM ACCEPTABLE, HIN CHANCELLOR SAYS

Germany Willing to Make Reparation
But Treaty Renders It Impossible, He Declares.

By Associated Press.

PARIS, May 13 (Havas)—Germany is willing to make integral reparation but the conditions in the peace treaty take from her all means of so doing, Chancellor Schiedemann told the National Assembly yesterday, according to the version of his speech received here from Berlin. The chancellor said that if Germany accepts and signs the treaty she will cease to exist.

The German government, he said, considers that the peace conditions of the Allied and associated powers are not acceptable. The chancellor criticized the action of President Wilson and said that his attitude deceived the hopes of the German people.

The chancellor announced that the German peace delegation had presented counter proposals and would present others.

STRENGTH FOR YOUNG MOTHERS

How Lydia E. Pinkham's Vegetable Compound Restores Health and Strength.

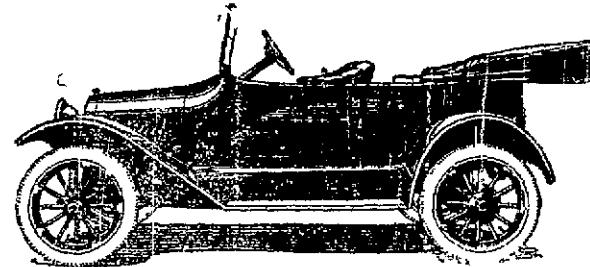

Lansing, Mich.—"After the birth of my child I was not able to stand on my feet. I was too weak. I could not get up. I suffered such pains in my back I could not work or hardly take care of my baby. One of my neighbors recommended Lydia E. Pinkham's Vegetable Compound. I took it and used Lydia E. Pinkham's Sanative Wash, and I got better right away and was soon a new woman and could work hard, and I can recommend these remedies to other young mothers who are weak and ailing as I was."—Mrs. Orr O. Bowens, 621 S. Hosmer Street, Lansing, Mich.

Women who are in Mrs. Bowers' condition should not continue to suffer from weakness and pain—but profit from her experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

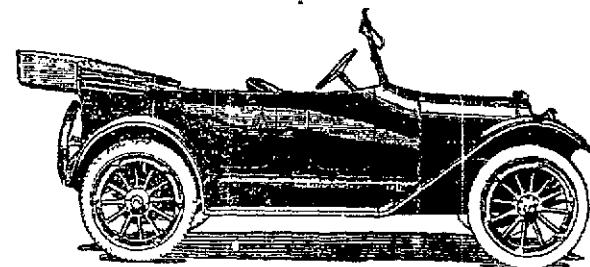

For suggestions in regard to your condition write Lydia E. Pinkham, Medioine Co., Lynn, Mass. Therein of their 40 years' experiences at your service.

Dear Mr. Parker:

We note from our records that your stock is entirely too large and we herewith inform you that you must reduce same. We are very much surprised that you would permit your stock to get this heavy and it must be reduced by at least \$10,000.00. While we fully appreciate that the increase in the cost of merchandise has materially increased your merchandise inventory, we at the same time cannot afford to permit you to carry such an extraordinary large stock.

Consequently we repeat to you, that you must reduce this stock the above figure and so far as any profit is concerned, simply forget that, but get your merchandise account down to the proper proportion.

Yours very truly,

R. E. BROWNELL, Pres.

By the tone of this letter he evidently means business and believe me, the manager of this store don't like to be called on the carpet this or any other way—the stock will be reduced.

He says in the letter—it must be reduced. And he also say—forget the profit. And say! Won't I. He has certainly made it easy for me. So if you need shoes—(any kind)—and want them cheap, just leave it to me, and come in and get them. I have listed a few below—if what you want is not in the list, come in and look us over. We have all kind and can please you and they're cheaper than you'll buy them again for some time.

It was not until the war was practically over that the Salvation Army received a little more than two per cent of the proceeds of the United War Work campaign, in which other organizations were allotted up to 58 per cent of the total.

It is not for a continuation of this work that the Army is planning the coming campaign. Funds sufficient for that purpose still are in the Salvation Army's war chest.
